Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Attorney Grubb discussed the similarities between the independent claims of the application and the system disclosed in Smith and then discussed adding limitations to the independent claims that describe what is generally disclosed in Figure 2 (i.e., a portion of the display is a picture display area, a portion of the display is a sub-menu display area, and a portion of the display is a soft key guide display area). Examiner Washburn told Attorney Grubb that adding the limitations generally disclosed in Figure 2 to the claims would require that the claims undergo further search and/or consideration before patentability of the claims can be determined.
